Advanced Security Concepts using Check Point NG

Advanced Technical Training and Education (AdvancedT2e)

Today, most IT departments are tasked to provide solutions with limited help from outside integrators. How can you learn techniques beyond the basics? Evolution's Advanced Technical Training and Education (AdvancedT2e) goes beyond normal certification classes and is taught either in a classroom or onsite at your location

AdvancedT2e -Check Point

Information Security Management Overview

- What is Infosec management?
